SUMMARY

Software Engineer experienced in building and shipping production software with active real-world users: an LTI 1.3 Canvas tool deployed at Copal AI, EduTrail's live discovery platform, and Intelli Ledgers, an active multi-tenant financial SaaS monetized across 8+ client businesses. Strong foundations in backend/API architecture, database optimization, and full-stack development across Python, Java, TypeScript, Next.js, and Supabase.

EXPERIENCE

Software Engineering Intern — Copal AI (USA · Remote) · ui.copal.ai *May 2026 – Oct 2026*

- Built CourseMap, a Canvas LTI 1.3 tool in Next.js embedded into Canvas LMS with OAuth2 and JWT validation via Canvas JWKS.
- Integrated Firebase Admin SDK/Firestore for state management and Canvas Files API; deployed directly via Firebase App Hosting.
- Consolidated two internal repositories into a unified codebase, resolving merge conflicts and unblocking parallel feature releases.

Software Development Engineer Intern — IntelliTaxAdvisor (New Delhi) · intelli-ledgers.vercel.app *May 2026 – Jun 2026*

- Architected Intelli Ledgers, a multi-tenant SaaS currently serving active business clients; enforced strict tenant data isolation via Postgres RLS.
- Shipped real-time modules (AR/AP, Cash Flow, Sales Analytics) using `postgres_changes` subscriptions, automated payroll delivery via Brevo, and GST compliance (GSTR-1/3B, ITC tracker) using Whitebooks GSP API.
- Engineered an Electron companion app actively syncing on-prem Tally ERP data to the cloud; monetized via Razorpay billing.
- Hardened authentication (OAuth, hCaptcha, CSP headers, server-verified session cookies) and resolved session-sync race conditions.

Backend & AI Engineering Intern — Neural Circle (Australia · Remote) · neuralcircle.com *May 2025 – May 2026*

- Optimized backend REST services for data-intensive analytical workloads, improving production API response times by 25%.
- **EduTrail:** Engineered an automated n8n data ingestion pipeline extracting and persisting ∼9,880 school records to Supabase using Gemini and Firecrawl, powering live search and discovery for active platform users.
- Architected pgvector schema for vector search, built an atomic job-queue claim function in Postgres, and automated report summaries.

TECHNICAL PROJECTS

GripNGear (Car Accessories E-Commerce) — *Next.js 14, TypeScript, Supabase, Razorpay* *2026 – Present*

- Building a full-stack e-commerce platform on Next.js 14 (App Router) and Supabase PostgreSQL, architected for 10,000+ concurrent users.
- Implemented Supabase Auth (JWT) sessions, Razorpay checkout, and client state with Zustand + React Query; deploying on Vercel + Supabase Cloud.

YouTube Transcript Q&A Chatbot — *LangChain, Pinecone, OpenAI API, Next.js* *2025*

- Implemented an LLM-powered RAG pipeline performing semantic similarity search over transcript corpuses using vector embeddings.

Fake News Detection NLP — *Python, Scikit-learn, NLTK, TF-IDF* *2025*

- Engineered a text classification pipeline achieving 94% accuracy via Logistic Regression, featuring TF-IDF vectorization.

URL Shortener & Analytics Service — *Node.js, Express, PostgreSQL* *2024*

- Developed a high-throughput redirection service featuring custom slug hashing and a real-time click/device analytics dashboard.

SKILLS & TECHNOLOGIES

- **Languages & Core CS:** Python, Java, C++, TypeScript, SQL, Bash, Data Structures & Algorithms, Object-Oriented Design
- **Web, Backend & Cloud:** Next.js, React, Node.js, Express, Django, PostgreSQL, Supabase, Firebase, MongoDB, REST APIs, Git, CI/CD
- **AI/ML & Tools:** LangChain, RAG, pgvector, Pinecone, Scikit-learn, Pandas, NumPy, n8n, Electron, Docker

EDUCATION

Vellore Institute of Technology, Chennai *Aug 2023 – May 2027*

B.Tech in Electronics and Computer Engineering **CGPA: 8.37 / 10**

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks

Red Rose Education Centre, Farrukhabad *Graduated 2023*

Class XII (PCM – CBSE) **Score: 86.5%**

CERTIFICATIONS & ACTIVITIES

- **Capital One LaunchPad Certificate:** Completed competitive technical development and career acceleration program.
- **Leadership & Community:** Management Team at CloudOps Club; contributor at Google Developer Group
